EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with S. Warren Hall on June 15, 2007.

The application has been amended as follows:

In the claims:

In claim 1, line 6, "separating mold blocks" has been changed to --mold blocks separating--.

In claim 5, line 6, --said-- has been inserted after "into".

2. Claims 1-17 are allowed.

3. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or reasonably suggest, the molding apparatus, as recited by instant claims 1-17, particularly wherein the moving mold includes the opposed mold blocks which meet in the closed mold block configuration to define the moving mold in the forward run of the mold blocks with the mold blocks separating to the open configuration in the return run of the mold blocks, the moving mold being surrounded by the air block housing in the forward run and the return run of the mold blocks to define the cooling chamber exteriorly around the moving mold, the cooling air being contained by the housing within the cooling chamber to act on and provide cooling of the moving

mold, and the cooling chamber maintaining the trapped cooled air environment about the moving mold.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The drawings were received on June 5, 2007. These drawings are acceptable.
5. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not identify the foreign application for patent or inventor's certificate on which priority is claimed pursuant to 37 CFR 1.55, and any foreign application having a filing date before that of the application on which priority is claimed, by specifying the application number, country, day, month and year of its filing.

The filing date of the foreign application in the declaration is incorrect.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph Leyson whose telephone number is (571) 272-5061. The examiner can normally be reached on M-F 9AM-5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gupta Yogendra can be reached on (571) 272-1316. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
